

FOURTH AMENDED PUBLIC HEALTH ORDER 20-38
LIMITED COVID-19 RESTRICTIONS
June 30, 2021

PURPOSE OF THE ORDER

I am issuing this Public Health Order (PHO or Order) in response to the existence of thousands of confirmed and presumptive cases of Coronavirus disease 2019 (COVID-19) and related deaths across the State of Colorado. This Order supersedes PHO 20-36 COVID-19 Dial and PHO 20-29 Voluntary and Elective Surgeries and Procedures, and implements reduced restrictions for individuals, businesses and activities, as well as reporting requirements for hospitals, to prevent the spread of COVID-19 further in Colorado.

FINDINGS

1. Governor Polis issued **Executive Order D 2020 003** on March 11, 2020, declaring a disaster emergency in Colorado due to the presence of COVID-19. Since that time, the Governor has taken numerous steps to implement measures to mitigate the spread of disease within Colorado, and has further required that several public health orders be issued to implement his orders.
2. I have issued public health orders pertaining to the limitation of visitors and nonessential individuals in skilled nursing facilities, intermediate care facilities, and assisted living residences; defining the terms of the Governor's **Stay at Home, Safer at Home, and Protect our Neighbors** requirements as well as **Critical Business** designations; requiring hospitals to report information relevant to the COVID-19 response; and requiring the wearing of face coverings in the workplace and urging their use in public. These measures all act in concert to reduce the exposure of individuals to disease, and are necessary steps to protect the health and welfare of the public. Additionally, in reducing the spread of disease, these requirements help to preserve the medical resources needed for those in our communities who fall ill and require medical treatment, thus protecting both the ill patients and the healthcare workers who courageously continue to treat patients.
3. As of June 29, 2021, there have been 557,347 known cases of COVID-19 in Colorado, 31,639 Coloradans have been hospitalized and 7,009 Coloradans have died from COVID-19. Multiple sources of data show that COVID-19 transmission and the use of the hospital system due to COVID-19 have leveled off in Colorado.

4. With the rescission of PHO 20-36 COVID-19 Dial, but the pandemic ongoing, it remains critical for individuals, communities, businesses, and governments to remain vigilant regarding the spread of COVID-19. Individuals are encouraged to remain at least 6 feet away from non-household contacts, wash their hands, and wear a face covering to reduce the likelihood of disease transmission. As we continue to combat COVID-19 in our communities, continuing some limited requirements to mitigate disease spread remain appropriate.

5. The following additional public health orders remain in effect:

- a. PHO 20-20 Requirements For Colorado Skilled Nursing Facilities, Assisted Living Residences, Intermediate Care Facilities, And Group Homes For COVID-19 Prevention And Response;
- b. PHO 20-33 Laboratory Data Reporting for COVID-19; and
- c. PHO 21-01 Vaccine Access And Data Reporting For COVID-19.

INTENT

This Order includes limited requirements for individuals and businesses to mitigate the spread of COVID-19 in Colorado. The Order requires face coverings in some settings. Additionally, the Order maintains some restrictions on certain activities while we continue to take steps to limit the spread of COVID-19 in Colorado, and includes a provision that authorizes CDPHE to require a county to comply with additional restrictions should certain metrics be met. The Order also includes hospital reporting requirements regarding bed capacity to provide the State with critical information to assess the status of the COVID-19 pandemic relative to the statewide capacity to provide necessary medical care and services to Coloradans.

ORDER

This Order superseded and replaced Public Health Orders 20-29 and 20-36, as amended, on April 16, 2021.
