I have been given a copy and have read, or have had explained to me, the information in the vaccine Information Sheet. I have had a chance to ask questions and they were answered to my satisfaction. **I attest that the above information is true and complete to the best of my knowledge, and I am aware that deliberate misrepresentation may jeopardize my health.** I understand the benefits and risks of the vaccine requested and ask that the vaccine be given to me / minor child (for whom I am authorized to make this request). I understand that it will not be fully effective for approximately two weeks. However, as with all vaccines there is no guarantee that I will become immune or that I will not experience side effects. I understand that one should not receive this vaccine if they have a severe allergy to eggs, have had a severe reaction to a previous influenza vaccine, or if they have had Guillain-Barre Syndrome.
